

**WE MAKE SOLAR ENERGY ACCESSIBLE**

FOR HOMES | INDUSTRIES | HOSPITALS | HOTELS & RESORTS | EDUCATIONAL INSTITUTIONS | COMMERCIAL & RESIDENTIAL COMPLEXES

TURNKEY SOLUTIONS

EXPERT ENGINEERING

BEST PROCUREMENT

TIMELY EXECUTION

## WE ARE ASUN

We are a professionally managed company providing solar and renewable energy solutions in India. We cater to a broad spectrum of customers as a contractor and systems integrator for solar energy projects.

Leveraging our linkages with the leading manufacturers in the domain of solar energy across the world, we bring you a diverse portfolio of services ranging from Captive Solar Power farms, Off-grid and Grid-tied Solar energy systems suited for both domestic and commercial applications.

## WE DO SOLAR PROJECTS

Expert Engineering, best procurement and timely project execution are our focus areas. We cater to requirements ranging from 5KW to multiple of 100KW's solar power systems. From rooftop installations for homes and institutions, to engineered solutions for commercial or industrial use.

Once you decide to opt for this green energy resource, just give us a call and we will come back with a best fit solution, designed specifically for your requirement. A solution that is designed to perform flawlessly throughout its project life, at industry leading efficiency levels.

## WE OFFER TURNKEY SOLUTIONS

It all begins with a site audit. We survey the area available, assess your energy requirement and arrive at the most appropriate system for you. Situation specific installation follows with astute space management (rooftops, car parks, raised sheds, building facades etc.), using the best available system components.

Our complete service package includes EPCM (Engineering, Procurement, Commissioning and Management), Remote Monitoring, Staff Training and most importantly, Operations & Maintenance throughout the project life cycle.

## WE ADD VALUE TO YOUR PROJECTS

Every solar project big or small is a long term capital investment. And every detail can impact your returns for years to come.

With our best industry practices in EPC and years of experience, we help you maximise returns on your investment and ensure a long lasting project life.

Some of the value additions that we bring to your project at no extra cost, include:

- Cost effective & viable project design
- Transparent product selection & procurement
- 5 year EPC & workmanship warranty
- Minimum plant performance ratio of 75%
- Remote monitoring and performance review
- Net metering assistance
- Phased system design and planning
- Innovative installation solutions

**Considering a Solar Installation?**

**Get in touch today and we will show you how you can get the best value for your investment**
